Welcome to the CEF’s quarterly newsletter.

The IMF-CEF provides economics training and advances leaders in each of the 22 member countries of the Arab League to raise the capacity and quality of economic policy making in the region. This quarterly newsletter highlights events and courses offered to member countries from February to April 2023 as well as forthcoming events and courses.

The Center’s training program encompasses courses covering core curriculum areas of macroeconomics, fiscal, financial, monetary, statistical, and legal topics. It also covers macro-critical growth areas, including inclusive growth, gender, climate change, governance, and digitalization. As a complement to its program of courses, the Center organizes conferences and seminars to discuss cutting-edge and emerging policy topics of relevance to member countries.

This quarter, the CEF held its annual steering committee meeting with its sponsors and partners. A highlight of the meeting was the continued support and strong collaboration with our sponsors and partners.

We invite you to follow the Center’s work through our website at CEF.IMF.org in English and Arabic and to share your comments by email at CEFAI@IMF.org.
